ADVANCING AFRICA THROUGH DIGITAL INNOVATION

— WHO WE ARE

Empowering Africa's Digital Future

Ebony Solutions is a trusted technology and cybersecurity solutions partner that empowers organisations across the African continent to thrive securely and sustainably. We deliver innovative, secure and transformative digital solutions built on excellence, integrity and a deep commitment to Africa's digital and economic growth.

Founded on the principles of excellence and innovation, Ebony Solutions is uniquely positioned to deliver comprehensive IT services that meet the needs of businesses operating in an increasingly complex and dynamic digital landscape. We combine African market insight with global best practice to help our clients protect their digital assets, modernise the way they work, and turn technology investment into measurable results.

Our Mission

To empower businesses across Africa by providing cutting-edge cybersecurity solutions, driving modern work and productivity practices, and leading the way in technology adoption and change management, securing digital environments and enabling a resilient, future-ready workforce.

Our Vision

To be Africa's most trusted partner in secure digital transformation, fostering a culture of continuous improvement that contributes to the continent's economic development and global competitiveness.

"We are not just an IT company; we are a partner in Africa's digital transformation journey."

— OUR VALUES

The Principles That Guide Us

Everything we do is anchored in a clear set of values. They shape how we engage our clients, how we build solutions, and how we measure success, with excellence and integrity at the core.

Excellence

Delivering exceptional quality and innovative solutions that create real, lasting value for our clients.

Integrity

We act with honesty, transparency and accountability in everything we do, earning trust every day.

Partnership

Building trusted, collaborative relationships that drive long-term success for our clients and communities.

Impact

Delivering measurable outcomes that empower organisations, people and communities to grow responsibly.

— WHY IT MATTERS

Our values are not statements on a wall. They are the operating standard for every engagement. They keep us focused on outcomes, honest in our advice, and invested in the success of the organisations we serve.

- ✓ Client-centric delivery on every project
- ✓ African focused, globally informed
- ✓ Transparent, accountable partnership
- ✓ Measurable, sustainable results

— WHAT WE DO

Core Service Pillars

We deliver expert services across the full digital value chain: protecting your environment, modernising the way your people work, and ensuring technology is adopted to deliver true return on investment.

Cybersecurity Solutions

Building resilient controls that protect your business from current and emerging threats. We integrate advanced threat detection, real-time monitoring, threat intelligence and incident recovery to safeguard your digital assets, systems and data.

Modern Work & Productivity

Enabling Microsoft 365 productivity and collaboration, alongside cloud migration and optimisation on Microsoft Azure and Google Cloud. Secure workspaces, automation and collaboration tools improve efficiency and support growth.

Adoption & Change Management

Technology delivers true ROI only when fully adopted. By aligning **people, process and technology**, our change experts design stakeholder engagement, training and continuous-support strategies tuned to your goals and culture, ensuring smooth transition and sustained adoption.

Finance Advisory & Governance

Providing strategic financial insight to drive performance and value, while strengthening governance and risk-management frameworks that help you meet regulatory obligations and grow sustainably and responsibly.

— OUR CAPABILITIES

Specialist Services We Deliver

A focused catalogue of engagements that protect, strengthen and future-proof your organisation, delivered by skilled professionals using proven methodologies.

Cyber Risk Assessments

Identify, quantify and prioritise risks across your systems, data and processes with clear remediation roadmaps.

Adoption & Change Management

Structured adoption, training and stakeholder engagement that turn new technology into everyday practice and measurable ROI.

Financial Strategy & Analysis

Strategic financial insight and modelling that drives performance, informs investment and unlocks value.

Compliance Advisory

Practical guidance to meet regulatory obligations, align to standards and strengthen governance posture.

Governance & Risk Mgmt

Frameworks that embed accountability, control and resilience for sustainable, responsible growth.

Incident Recovery

Restore systems, data and business operations after a security incident, with recovery planning and resilience improvements.

Cyber Awareness Training

Building a security-first culture through engaging, role-based training that turns people into your first line of defence.

Cloud & Modern Workplace

Microsoft 365 productivity and collaboration, Microsoft Azure cloud enablement, and secure cloud migration.

Automation & Optimisation

Streamlining operations by automating manual workloads and integrating systems for measurable efficiency.

— WHY CHOOSE EBONY SOLUTIONS

A Partner Built for Africa's Ambition

We pair deep local understanding with global best practice to deliver secure, high-impact outcomes, and we stay accountable for the results.

01 African Focused, Globally Informed

We understand the unique challenges and opportunities of the African market and tailor our solutions accordingly, while leveraging world-class standards and practices.

02 Expertise & Innovation

A team of highly skilled professionals at the forefront of technology, keeping our clients equipped with the latest tools and strategies to stay ahead.

03 Commitment to Excellence

A client-centric approach that ensures we fully understand your needs and consistently deliver solutions that exceed expectations.

04 End-to-End Partnership

From assessment and implementation to adoption and ongoing support, we walk the full journey with you, driving true, sustained return on investment.

The power of *people*, *process* and *technology*, working as one.

People

We put people first by equipping teams with the skills, awareness and confidence to embrace change and work securely.

Process

Proven, repeatable methods that embed governance, resilience and continuous improvement into daily operations.

Technology

Secure, modern platforms and automation that scale with your ambition and unlock lasting competitive advantage.
